

PVM/PVMI/PVMX

50Hz

VERTICAL MULTISTAGE CENTRIFUGAL
IN-LINE PUMPS

A LEADER IN WATER TECHNOLOGY

Pentair is one of the world's leading companies in the planning and manufacture of innovative products and systems suitable in any situation requiring the treatment, transportation and storage of water. The activity and success of Pentair is based on values such as constant improvement, the continuous development of new products, high-performance, competence, business ethics and market leadership. Pentair's employees share personal values such as accountability, deep respect for people and the environment and a candid and practical work style. Strong customer relationships and high quality standards allow Pentair to rank amongst the leading producers of technology and instruments for water treatment.

SAFE, CLEAN WATER

Providing clean, safe water to an ever-growing portion of the population is the Mission of Pentair: a valid organization is engaged to serve our customers in an efficient manner through production plants located in every corner of the world and specialized sales and marketing networks.

FLOW TECHNOLOGIES

Vertical and horizontal centrifugal pumps; submersible pumps for domestic, commercial, agricultural and industrial use; pumps for the drainage of clear and wastewaters; pressure booster units and fire-fighting systems.

WATER TREATMENT

Residential, commercial and industrial water conditioning control valves; fibre-glass wound expansion tanks and vessels; water storage tanks.

FILTRATION

Industrial, residential and commercial filtration systems; filter cartridges, components for the filtration of drinking water, pumps for mobile homes and boats and pumps and accessories for applications in industry and the catering service.

POOL AND SPA

A complete range of pool/spa equipment and accessories: filters, pumps, heating and lighting systems and cleaning accessories; dosing and control systems and products and accessories for fountains and ponds.

WATER ENERGY WE PUT ENERGY INTO YOUR WATER

Pentair has been committed to the design and production of electric water pumps providing our customers with quality products and concrete solutions for all their needs. Within the wide Pentair Water Supply range, engineering firms and plumbing and heating/cooling distributing centres can find products and systems which meet any need with regards to water supply and pressurization in the realm of residential and commercial building, irrigation and industry applications.

FIRE-FIGHTING SYSTEMS AND PRESSURIZATION SYSTEMS

Vertical and horizontal centrifugal pumps. Complete systems for the transfer and pressurization of water. Fire-fighting systems.

ELECTRIC PUMPS FOR RESIDENTIAL USE

Submersible pumps, self-priming pumps, multistage centrifugal pumps and compacting pumping systems for domestic water supply, irrigation and the re-utilization of harvested rainwater.

ELECTRIC PUMPS FOR DRAINAGE

Pumps for the transfer of clear, dirty and wastewaters and sewage. Pumps for numerous applications (water in basins, tanks, pumping stations etc.)

ELECTRIC PUMPS FOR OPEN AND DRILLED WELLS

Submersible pumps for irrigation and pumping underground waters.

PVM/PVMI/PVMX

VERTICAL MULTISTAGE CENTRIFUGAL PUMPS

HIGH HYDRAULIC EFFICIENCY, MOTOR DESIGNED TO EN STANDARDS

The PVM, PVMI and PVMX are non-self priming vertical multistage pump of in-line design, flange or with Victaulic coupling with equally sized suction and discharge ports.

Stage construction with stainless steel impellers, chambers and pressure casing. Pump stub shaft and motor shaft of the IEC-standards motor are directly close coupled.

All pumps are equipped with high efficiency motors (IE3) and with a cartridge type mechanical seal for easy maintenance.

PVM, PVMI and PVMX pumps have different pump sizes and various numbers of stages to provide the flow and the pressure required.

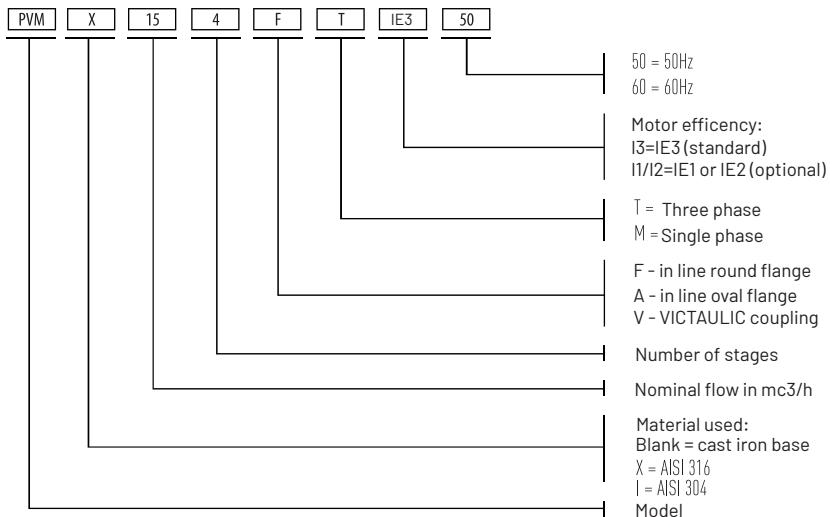

APPLICATIONS

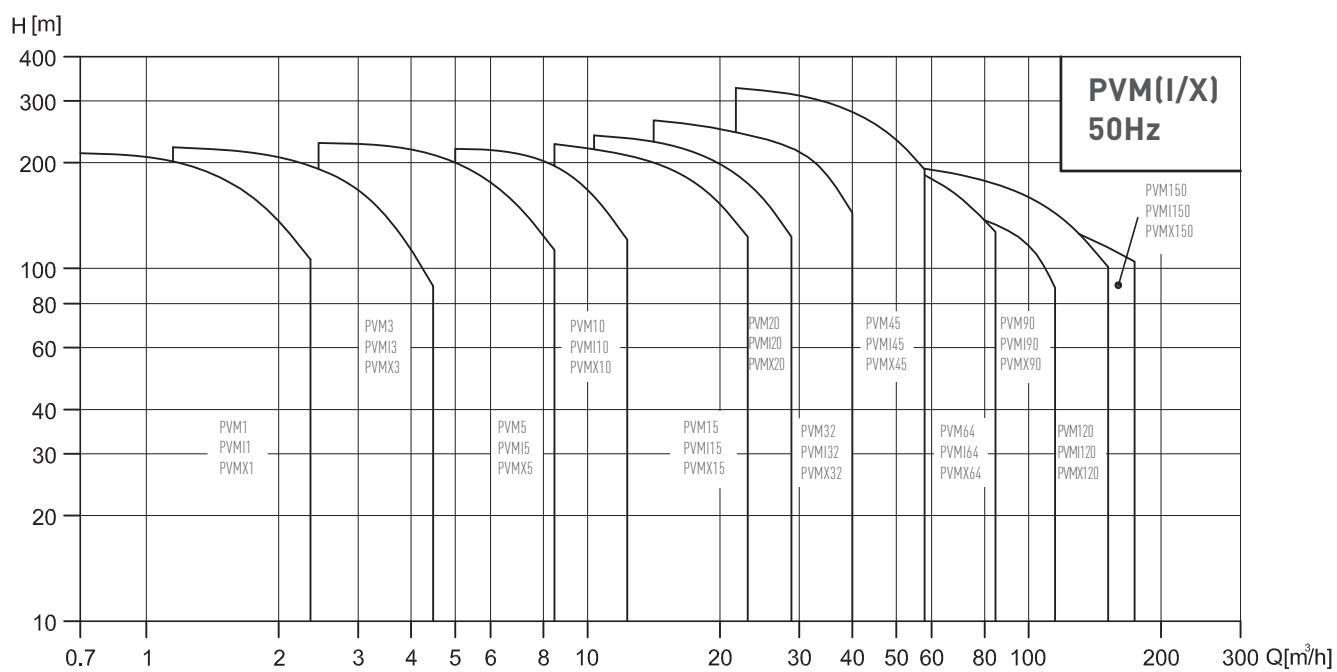

- Water supply
- Pressure boosting systems
- Water treatment/filtration
- Irrigation
- High pressure washes
- Liquid transfer
- Firefighting systems
- Boiler feed

IDENTIFICATION CODE

PERFORMANCE RANGE

MOTOR

- Asynchronous electric motor with enclosed stator and external ventilation
- Energy efficiency: IE3 (IE1-IE2 motors available on request)
- Level of protection IP55
- Main dimensions are in accordance with DIN and IEC standards
- Class F insulation
- Maximum environmental temperature 50°C
- Speed of rotation 2900 rpm
